SKILLS

BACK END DEVELOPMENT – Python • Java • Machine Learning • MYSQL
• Django • Flask

FRONTEND DEVELOPMENT – JavaScript • Bootstrap • HTML • CSS
• Jquery • Flutter • Android Studio

EXPERIENCE

01/2023 – present

RISS TECHNOLOGIES

Software Associate

Web Development

- Developed multiple dynamic websites using Python, with a focus on Django and Flask frameworks.
- Utilized HTML, CSS, Bootstrap, and jQuery for front-end development, ensuring a modern and user-friendly interface.
- Employed WAMP server for project development and testing, ensuring seamless integration with web-based components.

Mobile App Development

- Created Android applications using Java in Android Studio.
- Designed and implemented the user interface for the apps, ensuring a seamless and visually appealing experience including the use of Flutter for cross-platform UI design

Database Management

- Managed databases using MySQL, ensuring efficient data storage and retrieval for various projects.

Machine Learning Projects

- Successfully applied machine learning concepts in diverse projects, including face ID recognition, plant disease detection, crop recommendation for farmers, weapon detection system, currency detection for visually impaired individuals, bone fracture detection, and driver drowsy detection.
- Utilized WAMP server for project development and testing, ensuring seamless integration with web-based components.

EDUCATION

2017 – 2021

KERALA TECHNICAL UNIVERSITY

Bachelor of Technology

GPA 7.09

2014 – 2016

KERALA STATE BOARD HIGHER SECONDARY

Computer Science

GPA 8.11
